Meems Engineering
Powering a Greener Tomorrow
ELECTRICAL ENGINEERING • RENEWABLE ENERGY SYSTEMS

HSE Policy Details

Meems Engineering is a trusted power engineering, contracting, and support services provider headquartered in Bangladesh. Leveraging technical expertise and industry experience, the company delivers innovative, reliable, and value-driven solutions for diverse projects and operational requirements. **"Health and Safety"** is an essential part of our company, committed to providing and maintaining a safe, healthy, and productive working environment for all our employees through the implementation of a comprehensive HSE Programme. In addition, continuous efforts are made to identify and control environmental aspects and impacts, as well as health hazards and diseases.

The Company will ensure compliance with all relevant legislation and regulations, as well as client requirements. We are dedicated to proactively managing our risks through a structured Risk Assessment process to anticipate, minimise, and control Occupational Health and Safety hazards, thereby promoting a culture of **"Zero Tolerance"** (all accidents are preventable) and eliminating accidents.

Meems Engineering is committed to proactively identifying hazards, assessing risks and opportunities, and implementing effective controls to minimise the health, safety, and environmental impacts associated with:

- Electrical and power engineering activities
- Solar energy and renewable power projects
- Mechanical installation and maintenance works
- Equipment transportation, lifting, and material handling operations
- Use of tools, machinery, and work equipment
- Occupational exposure to noise, electricity, chemicals, and other workplace hazards
- Waste management, pollution prevention, and environmental protection
- Contractor, employee, and visitor health and safety

Furthermore, we will monitor the implementation and effectiveness of our HSE Management system through periodic audits and reviews to continually improve our performance in this regard.
